Equal parts nostalgic throwback and futuristic forward thinking, Tropic is fast becoming an unstoppable force in 2020. Their signature sound has captured the attention of critics and fans alike. Tropic’s recent single ‘Alive’ received immense support from Spotify’s editorial team, garnering placements on 9 New Music Friday playlists across Asia. The single has since been on constant rotation on 3 Spotify

editorial playlists and has racked up more almost 400,000 streams since its release. The single's remix was also added to Spotify's Electro Mix playlist.

When speaking about 'Secret', the duo said, "Finding love isn't always easy, especially when the person you've fallen for wants nothing more than a late night hookup. With Secret, we wanted to explore the duality of a relationship that's being forced to stay in the closet, longing for something more but intoxicated by the rush of being undercover. There's a thrill in doing something you're not supposed to be doing, in indulging your secret desires. Love and sexuality can be an exciting, confusing mess, and in the heat of the moment it can make even the most toxic relationships seem worth it."

Secret is out Friday, July 17th on all major music outlets.
